

I have located a number of errors in the "SV List" attached to this Notice. Some are trivial, but some seem to be significant:

- Cheatham County, Tennessee is misspelled as "Cheatam".
- KLGT channel 23, Minneapolis appears as significantly viewed in several counties. This station changed call letters to KMWB some time ago. (CDBS Facility ID 36395)
- WPWR channel 50, Chicago appears in several counties. This station is licensed to Gary, Indiana. (CDBS Facility ID 48772)
- CBLT channel 6, "Canada" (Toronto, Ontario) appears as significantly viewed in Niagara County, New York. (and as later added in several other New York counties, but without a channel number listed) This station moved to channel 5 in the 1970s. (CDBS Facility ID 98581)

There is a remote possibility the channel 6 station referred to is actually the Paris, Ontario station which signed on around the time of the 1972 list (presumably after CBLT Toronto moved to channel 5) as CKGN-TV and operates today under the call letters CIII-TV. (CDBS Facility ID 98651)

- KFIZ-TV channel 34, Fond du Lac, Wisconsin appears as significantly viewed in Fond du Lac and Winnebago Counties. This station has been off the air since the early 1970s and is no longer in the FCC Database.
- WJJY-TV channel 14, Jacksonville, Illinois appears as significantly viewed in Ralls and Marion Counties in Missouri. This station has been off the air since the early 1970s and is no longer in the FCC Database.

These are based on a quick perusal; I strongly suspect there are other "defunct" stations listed.
